**FOR IMMEDIATE RELEASE**

**Trine Aero Secures Dealership Agreement with L-3 Avionics Systems**

**Colorado Springs, CO, November 3, 2016-** Trine Aero is pleased to announce that they have secured a Dealership Agreement with L-3 Avionics Systems. The new agreement will continue to expand the company's growing avionics capabilities.

Trine Aero, a full-service provider of aviation and aerospace products and services, can now offer an expanded scope of services to their customers as an Authorized Dealer of L-3 Avionics Systems. These advances include warranty support, avionics upgrades, authorized support of L-3 Avionics Systems in repair, and installations.

"Customers of Trine Aero will be able to rely on us as an in-house provider for warranty and avionics services and will reduce outsourcing," said Sean Schafer, Director of Avionics, Trine Aero. "This is the latest in our focus to increase our capabilities and strengthen our relationships with OEMs to benefit the support of legacy aircraft. OEM support as well as having on-site engineers. It allows Trine Aero to eliminate the need to outsource engineering services," Schafer continued.

Trine Aero is a full-service provider of aviation and aerospace products and services. Operating from Colorado Springs (KCOS) airport, Trine Aero supports a wide array of solutions to a variety of markets, including: Aerospace and Defense, Business Aviation, Engineering and Manufacturing, and Special Mission. Services include major alteration and major repair design, avionics installation and repair, parts fabrication, analysis and FAA-DER engineering approvals.
